

# SEA FREIGHT

## SEA FREIGHT

# OUR GLOBAL SEA FREIGHT SOLUTIONS ARE PERFECTLY BALANCED, PRODUCE OPTIMAL BENEFIT AND DELIVER OUTSTANDING VALUE.

### CARRIER CHOICE

Supply chain patterns must be clearly understood so we listen to your requirements and match carrier choice to your business profile.

### TRANSIT TIMES

For time definite stock, we deploy best in class carriers which offer the fastest direct schedules with the most frequent services to ensure on-shelf or in-store availability, meets demand.

For both stock build and replenishment orders, we utilise carriers with indirect loops and flexible transit times to improve your stock holding integrity by extending arrival times.

### VALIDITY

Whether you leverage the spot market, wish to lock logistics' costs long term or simply combine these two characteristics, we have complementary rates to fit all requirements.

### IMPLEMENTATION

Warrant Group's implementation handbook provides robust governance on procedure and process irrespective of project scale or complexity. Implementation plans and schedules are defined so work streams can be formed and milestone dates set.

### CONSOLIDATION

Provides the ability to combine multiple part load shipments into one consolidated container.

This desirable channelling of product creates cost benefits along the entire supply chain, by improving full container utilisation yields and minimising cost, by shipping stock on a cubic capacity only basis.

### FREIGHT MANAGEMENT

We adapt to different requirements, by either integrating our own multimodal solution or providing management fee value to a carrier direct relationship.

### EXPORTS

As a market leader in providing tailored export solutions, we execute a best in class operation leveraged by experienced and highly skilful account directors delivering outstanding value and service.

### ACCOUNT MANAGEMENT

In this demanding arena, we take a stringent approach to KPI's and have a tailored suite of detailed milestones on which transparent results are recorded.

### HAULAGE

Warrant Group takes full responsibility for ensuring no unproductive time or lost man hours are incurred as a result of late arrivals.

From scheduling goods-in slots and booking collections to coordinating with carriers and our own subcontractors, we plan meticulously to ensure vehicles arrive as booked and promised.

### VISIBILITY

The Warrant Portal offers exceptional track and trace functionality, with real time first screen filtering and a built in navigation panel that complements its user friendly GUI.

It possesses both documentation and invoicing upload attributes and a full reporting menu.

### STANDARD OPERATING PROCEDURES

Standard operating procedures are updated monthly and available online, they act as a key component in monitoring global processes.
